Contents Volume 24

Vol. 24, Nos. 1,2 (November 1991)

The Proceedings of the Sixth International Working Seminar on Production Economics, Part II

Relevance lost? A critical discussion of different cost accounting principles in connection with decision making for both short and long term production scheduling
N.A. Bakke and R. Hellberg (Norway) 1
Inventory structure in the manufacturing industry – A cross-country comparison
A. Chikán (Budapest, Hungary) 19
Application of the ORESTE method to a nuclear waste management problem
C. Delhaye, J. Teghem (Mons, Belgium) and P. Kunsch (Brussels, Belgium) 29
Technical audit: How to assess the technological standard of a company
H. Detter (Vienna, Austria), H.H. Hinterhuber and H. Wörndl-Aichriedler (Innsbruck, Austria) 41
The Modigliani–Hohn model with capacity and warehousing constraints
I. Dobos (Budapest, Hungary) 49
Just-in-Time logistics of a supplier in the car manufacturing industry
G. Fandel (Hagen, Germany) and J. Reese (Bonn, Germany) 55
Master production scheduling: a function based approach
P.M.J. Giesberts (Eindhoven, The Netherlands) 65
Feeding parts to an assembly line by several production units
D. Golenko-Ginzburg and A. Goldfeld (Beer-Sheva, Israel) 77
Customs clearance and electronic data interchange – A study of Norwegian freight forwarders using EDI
R. Hellberg (Bekkestua, Norway) and R. Sannes (Stockholm, Sweden) 91
Safety stock optimization in multi-stage inventory systems
K. Inderfurth (Bielefeld, Germany) 103
Logistics management: a method for evaluation of production-distribution investments
H. Kivijärvi (Helsinki, Finland) and M. Tuominen (Lappeenranta, Finland) 115
Short term inventory and employment adjustment dynamics in Finnish forest industry
K. Kyläheiko (Lappeenranta, Finland) 129
Quality and productivity: the linkage
R.N. Mefford (San Francisco, CA, USA) 137
Simulation analysis of JIT production line
S. Meral and N. Erkip (Ankara, Turkey) 147
Behavioral implications of the learning curve for production capacity analysis
S. Palaniswami and R.C. Bishop (Mt. Pleasant, MI, USA) 157
The calculation of operational performance ratings
C. Parkan (Kowloon, Hong Kong) 165
Characteristics of logistics management in 23 Finnish companies
T. Pirttilä and V.-M. Virolainen (Lappeenranta, Finland) 175
Empirical study of a new procedure for allocating safety stock in a wholesale inventory system
H. Schneider and D.B. Rinks (Baton Rouge, LA, USA) 181
Maximizing throughput by evaluating critical utilization paths
P.J. Weeda (Enschede, The Netherlands) 191
Staff oriented simulation of new production systems
G. Zülch (Karlsruhe, Germany) 199

Vol. 24, No. 3 (March 1992)

Special Issue on Maintenance

Preface 207

0925-5273/92/$05.00 © 1992 Elsevier Science Publishers B.V. All rights reserved.

The EUT maintenance model
W.M.J. Geraerds (Eindhoven, The Netherlands) 209
Design of maintenance concepts
C.W. Gits (Eindhoven, The Netherlands) 217
Revising models of maintenance and inspection
A.H. Christer and D.F. Redmond (Salford, UK) 227
The reliability of equipment: yesterday's research and tomorrow's requirements
R.H. Collcutt (Manchester, UK) 235
The use of knowledge-based systems in evaluation and enhancement of maintenance routines
K.A.H. Kobbacy (Salford, UK) 243
Evaluation methods of standard software with respect to their effectiveness
H.H. Martin (Eindhoven, The Netherlands) 249
Design and implementation of a maintenance planning and control system
G. Ulusoy, I. Or and N. Soydan (Istanbul, Turkey) 263
Economics of pipeline maintenance and replacement
A.K. Sheikh (Dhahran, Saudi Arabia) and M. Saleem (Lahore, Pakistan) 273
Optimal spare allocation problem based on the interval estimate of availability
S. Yanagi, K. Aso and M. Sasaki (Yokosuka, Japan) 285
SPARTA II: Further development in an expert system for advising on stocks of spare parts
D. Petrović and R. Petrović (Belgrade, Yugoslavia) 291
